in the federal government for the fiscal year ended June 30, 1965. No photograph was available for the 10th finalist, Dr. Bruce N. Ames.

## 10 Flemming Award Winners Named by District Jaycees

The D.C. Junior Chamber of Commerce today announced the 10 winners in the annual Arthur S. Flemming Awards program which honors outstanding young men in federal service.

Nine of the 10 finalists are Washington area residents. All won recognition for the fiscal year ended June 30, 1965. They will be introduced at a luncheon Feb. 17 in the Statler-Hilton Hotel.

Serving on the judges panel were Tom C. Clark, associate justice of the Supreme Court; Crosby Boyd, president of The Evening Star; Dr. Emory Cook, president of Operations Research, Inc.; Dr. Lloyd Elliott, president of George Washington University; John Pocock, president of Booz Allen Applied Research, Inc.; C. R. Smith, chairman of the Federal Reserve Bank of Washington; and James Russell Wiggins, editor of the Washington Post.

The Flemming Awards program is sponsored by the Downtown Jaycees of the D.C. Junior Chamber of Commerce in cooperation with the U.S. Civil Service Commission. It has been underwritten for several years by the C. & P. Telephone Co., Potomac Electric Power Co. and the Washington Gas Light Co.

This year's winners are: Richard R. Bonner, 38, of Bethesda, supervisory general engineer of the Army Supply and Maintenance Command, whose work resulted in substantial monetary savings and increased productivity of operations under his direction.

Andrew F. Brimmer, 39, of Washington, assistant secretary of commerce for economic affairs, who was responsible for the program of voluntary cooperation with the business community to improve the nation's balance of payments.

Raymond L. Garthoff, 36, of Washington, State Department special assistant for Soviet Bloc politico-military affairs.

Robert Lundegard, 38, of Falls Church, head of the logistics and mathematical statistics branch, Office of Naval Research. He was responsible for development of the Navy's maintenance and material management information system which led to considerable cost savings.

Timothy J. May, 38, of Sumner, Md., managing director of the Federal Maritime Commission, who helped automate the paperwork of the ocean shipping industry.

Dr. Bruce N. Ames, 36, of Rockville, research biochemist at the National Institutes of Health, whose work provided the first definite information on the origin of an important amino acid.

Chase, agricultural economist, Department of Agriculture, who developed new concepts about the world food situation which may change U.S. foreign agricultural policy.

Robert A. Froesch, 37, of Bethesda, a nuclear test detection specialist in the office of Secretary of Defense Robert S. McNamara.

Gerald S. Hawkins, 37, of Wellesley, Mass., an astronomer with the Smithsonian Institution who directed six research projects relating to meteor astronomy.

Wilnot N. Hess, 39, of Silver Spring, chief of laboratory for theoretical studies excepted, National Aeronautics and Space Administration.
